OUR STORY
About Global Café
Business School
Founded with a mission to elevate café culture through world-class education and industry mentorship.

Transforming Coffee Passion
into Professional Careers
Global Café Business School emerged as a critical gap in Singapore's F&B education landscape. As café culture boomed, there was a clear need for structured, professional training that went beyond basic barista skills.
Our founders — experienced café operators and hospitality professionals — created a curriculum that combines the science of coffee with practical business management, creating graduates who can thrive in any café environment.
Today, GCBS is recognised as a leading private education institution for café and hospitality management, with graduates working across Singapore, Malaysia, Indonesia, and beyond.
